

Thredbo Village Upgrade Works

Project completion date: 2007

Overall value of project: \$1M

Location: Thredbo Village, NSW

Client: Kosciusko Thredbo

Contract type: Lump Sum

Scope:

This project involved a variety of work, which included:

- Relocation of an existing water main in a geologically unstable area, including installation, testing and re-connection of services.
- Reconstruction of 180m of the village entrance road at Friday Flat.
- The construction of the Delta area carpark including bulk earthworks, stormwater, subsoil, conduits, asphaltic concrete and landscaping works.
- Pavement rehabilitation work around the village.

Referee:

Mr. Euan Diver (Client's Representative), Kosciusko Thredbo Pty Ltd, (02) 6459 4103
