

Tidbinbilla Road Reconstruction

Projected Project completion date: 2008

Overall value of project: \$1.8M

Location: ACT

Client: Roads ACT

Contract type: Lump Sum

Scope: The rehabilitation of pavements on Tidbinbilla Road, Paddy's River Road and Northcott Drive. The project includes:

- Removal of the existing bituminous surfacing and deep lift asphalt patches
- Compaction of the existing decomposed granite base course
- Overlay of the existing base with minimum 100-130mm granular base course
- Application of a primer seal bituminous surfacing
- Line marking
- Minor drainage works

There are three work sites where the above work is taking place, as follows:

- Paddy's River Road from Tidbinbilla Tracking Station access road, to the Tidbinbilla Nature Reserve Road
- Tidbinbilla Road from the Tidbinbilla Nature Reserve Road, to Corin Road
- Northcott Drive, in the suburb of Campbell, from Fairbairn Ave to the Campbell Park Offices
- In total over 6 kilometres of road is being rehabilitated over the above work sites
